

Foot Comfort

Thermal Ankle and Foot Stabilizer

Thermal ankle and foot stabilizers have been clinically proven to increase the temperature around your ankle to provide low heat therapy, this increases the circulation of blood around your ankle joint and tendons to help relieve pain and alleviate the sensation of “burning feet” from Diabetic Neuropathy.

- ★ Ideal for people with diabetes, arthritis, and diabetic neuropathy.
- ★ Foot Comfort includes two (2) removable stabilizer inserts, one on each side, that are anatomically shaped to provide support for your ankle.
- ★ The special lining inside the thermal ankle and foot stabilizer allows moisture to escape, allowing the skin to breathe and ensuring long-term comfort.
- ★ The Velcro strip wraps around your ankle for easy adjustable compression for a perfect fit.
- ★ This soft brace, with regular use, increases elasticity of the muscles and tendons around your ankle and foot to reduce the risk of injury when the foot is under stress.
